

JURA

This file contains election results for Jura's Grand Conseil in 1998, 2002, 2006 and 2010.

Voters may cast as many votes for candidates as there are mandates in the constituency, and voters are permitted to vote for candidates of different parties (*panachage*). The number of mandates per constituency varies, so weighting renders the results comparable across constituencies. Unweighted votes are the total party list and candidate votes cast in each constituency. Weighted votes are weighted by the valid votes cast in the constituency (*Chiffre de pondération*). Both unweighted and weighted results are presented for each election. Though mandates are allocated within constituencies, the file includes unweighted results for each commune.
