

NEUCHÂTEL

This file contains results for the Neuchâtel Grand Conseil in 1997, 2001, 2005, 2009 and 2013. Mandates by constituency are missing for 1997.

Votes totals are presented in unweighted and weighted (*Chiffre de pondération/Wählerzahl*) form. Voters may cast as many votes for candidates as there are mandates in the constituency, and voters are permitted to vote for candidates of different parties (*panachage*). The number of mandates per constituency varies, so weighting is necessary to render the results comparable across constituencies. The votes presented here are weighted by the valid votes cast in the constituency.

Canton Neuchâtel also allows *apparentment* (cartels) between multiple lists. Below the variable descriptions, apparentments within each constituency for each year are listed but only apparentments between different parties are included.
