

VALAIS

This file contains elections for the Valais Grand Conseil/Grossrat in 2001, 2005, 2009 and 2013.

Votes totals are presented in unweighted and weighted (*Chiffre de pondération/Wählerzahl*) form. Voters may cast as many votes for candidates as there are mandates in the constituency, and voters are permitted to vote for candidates of different parties (*panachage*). The number of mandates per constituency varies, so weighting is necessary to render the results comparable across constituencies. The votes presented here are weighted by the valid votes cast in the constituency.

Blank votes (*Suffrages blancs*) are different from blank ballots. Blank votes are when candidates cast fewer votes that count toward the total of any party or candidate than there are seats in the constituency.
